

Dear Parents,

Again this summer, in our continuous efforts to provide the best possible care to our campers and staff, Holmes Presbyterian Camp is partnering with CampDoc.com.

CampDoc.com is an electronic health record system for camps, and will help us consolidate and integrate camper health information into a centralized and secure location. Their system will give our nurses instant access to camper health information, a key component in providing quality patient care.

The security, confidentiality and privacy of your camper's personal health information will always be protected. Only Holmes Presbyterian Camp's health staff will have access to camper health information, and the CampDoc.com site is secure, encrypted and password protected.

You will receive a "Welcome E-mail" from CampDoc.com with information about how to complete your camper's health information.

- Click the link in this email to set a new password for your CampDoc.com account.
- Follow the instructions, and complete the health history for your camper. Alerts will appear for any missing required information.
- Upload any required documents to your CampDoc.com account.
- Return to CampDoc.com at any time to make changes/updates to your camper's health information before camp begins.

In addition to the information on CampDoc.com, there are forms that your camper's health care provider much complete. You may scan these completed forms directly to CampDoc.com, or returned to the Camp Office – this should be done two weeks before your camper's session to make sure our nurses can best prepare for your camper.

If you are unable to complete the information online or have submitted completed forms directly to Holmes, the Holmes health staff will input your data to insure that your camper is cared for in the best manner possible. One advantage of this online system is that basic data will not need to be completed again in future years.

Please set register@campdoc.com as a 'safe sender,' to avoid accidental delivery to junk and spam folders.

We are excited to continually evolve – building safer, more productive and more efficient systems to create the best experience for you and your family.

We can't wait to see you this summer,

Rev. Peter Surgenor
Natasha Taylor
